COLLABORATIVE TASKS

Collaborative tasks are a part of the teaching – learning process in the institution. The teachers plan for collaborative learning for the courses they teach. They make students actively engaged in the learning process by providing group tasks for certain concepts they teach. The collaborative tasks require students to work in groups to complete a task or learn a concept. This fosters the spirit of teamwork and helps the members of the group to get mutual benefits. The collaborative tasks make all the learners' relationships, the extroverts volunteer to help others in the group, the wait for his turn and all members of the group unconsciously learn about leadership and team work. Collaborative tasks is a great way to understand and serve the differences among students. The details of the collaborative tasks given to students for the different courses are as follows:

S.No.	Name of the Course	Topic	Collaborative Task Given	Course Teacher
1.	Childhood and growing up	Influences on Gender roles Stereotyping and Gender socialization	Construction of Conceptual Map	Dr. Parinita Ratnaparkhi
2.	Childhood and growing up	Relationships with peers	Recorded responses of students.	Dr. Parinita Ratnaparkhi

ACTIVE LEARNING METHOD ADOPTED IN THE CLASSROOM

ACADEMIC YEAR 2021-22

Name of the teacher : Dr. Parinita Ratnaparkhi

Course : **Childhood and Growing up**

Topic : Influences on Gender Roles Stereotyping and Gender Socialization

Date : 08/09/2021

Class : B.Ed. First Year

No. of Students Present : 84

Description of the method

The students were taught about the different influences on gender stereotyping. They were then asked to construct a conceptual map on the biological, cultural and environmental influences on gender stereotyping in groups. They were given the freedom to do it either on paper and using technology. This helped to strengthen their understanding of the concept.

ACADEMIC YEAR 2021-22

Name of the teacher : Dr. Parinita Ratnaparkhi
Course : *Childhood and Growing up*
Topic : Relationships with peers.
Date : 15/09/2021
Class : B.Ed. First Year
No. of Students Present : 87

Description of the method

The students were divided into groups. There were given a few minutes to think about an example for Relationship with peers. Each group was given time to present the example. A few students came up answers in each group. The answers were recorded by the teacher and then they were asked to reflect on the influence of peer group on decision making. The exercise helped students to realize that peer group has the most intensive influence, especially during adolescence. The exercise could have been more effective in a real classroom. Only a few students volunteered to answer in an online mode.

Evidences (if any)

Recorded responses of students.

Course : *Childhood and Growing up*
Topic : Development task of childhood & adolescence & their implications
Date : 12/10/2021
Class : B.Ed. First Year
No. of Students Present : 76

Description of the method

The students were divided into groups and asked to prepare visuals on the milestones in the first year of human life. The students worked in groups and prepared visuals. The visuals were presented and clarifications about the developmental tasks were made. This helped the students to explore the topic and promote self-learning. The presentation helped to resolve ambiguities in understanding of the concept.

Course : *Childhood and Growing up*
Topic : Personality Development, Principals & Theory
Date : 22/01/2022
Class : B.Ed., First Year
No. of Students Present : 81

Description of the method

A collaborative task was assigned to the students. The students were divided into 9 groups. The principles of growth and development were written on the board. Each group was assigned a principle for exploration. They had to discuss and find out what the principle meant. They also had to come up with a suitable example for it. One member of the group presented the explanation with an example. The teacher repeated the explanation and clarified the doubts of the students.

Topic : Micro Teaching
Date : 05/01/2022 (Introduction)
01/02/2022 to 09/02/2022 (Micro Teaching Practice in Groups)
Class : B.Ed. Second Year
No. of Students Present : 05

Description of the method

Since the students came to the college to give their answer scripts of II internal examination I have informed them earlier and took a class for them on Micro Teaching. The various skills and steps of Micro Teaching are taught to the students with examples. Students have received a basic idea of Micro teaching and the writing of a lesson plan for Micro teaching was taught to the students.

The college reopened on September 1st as per the government guidelines and Micro teaching practice was given to the students. Students were divided into two groups and they wrote five lesson plans for micro teaching. The lesson plans were corrected and the students were instructed to use appropriate devices. They taught the lessons and were observed by their peers. Give feedback orally as well as in the coding sheet. Students carried out the corrections in the next cycle.

ACTIVE LEARNING METHOD ADOPTED IN THE CLASSROOM ACADEMIC YEAR 2021-22

Name of the teacher : Nikita Yadav
Course : Psychological perspective of education
Topic : The methods used in educational psychology
Date : 11/04/2022
Class : M.Ed., Second Year
No. of Students Present : 42

Description of the method

Teaching Method: Group Discussion

The students were divided into three groups of each with 4 members. They were given topics as mentioned above. Each group had separate topics and they collected material from various sources.

The students discussed the topic actively among them and discussed all important points in their group. Each one added their points for discussion. Finally the teacher summarized all the points discussed in each group and gave feedback for each group.
